Next-Generation Hyper-Local Social & User-Governed Content Platform

EXECUTIVE SUMMARY

Tolee (tolee.in) is a community-first, multi-modal social ecosystem engineered for India's next 500M internet users. Unlike legacy platforms driven by opaque algorithms, Tolee pioneers transparent, community-governed content discovery and automated micro-creator monetization.

THE PROBLEM

• **Black-Box Algorithms:** Centralized platforms prioritize engagement loops over user agency, suppressing genuine regional voices.
• **Lack of Micro-Monetization:** Community leaders & group admins drive 80%+ of platform activity but receive 0% revenue share.
• **Fragmented Local Discovery:** No unified platform connects neighborhood radar, local news, and community commerce.

THE TOLEE SOLUTION

• **User-Governed Viral Control:** Real-time democratic voting (*Make this Viral* vs *Get it Down*) with global audience distribution.
• **Hyper-Local Neighborhood Radar:** Live geo-tagged community updates, local deals, secret food, and emergency alerts.
• **Community Admin Revenue Sharing:** Native 10% lifetime referral and group-admin revenue split models.
• **Integrated Media Stack:** High-speed PWA powering Feeds, Reels, Live Darshan/Broadcast, Groups, Sports & Marketplace.

KEY METRICS & TRACTION

• **Full-Stack Infrastructure:** Production Next.js 14, Neon PostgreSQL, Cloudflare CDN, real-time WebSockets.
• **Active Core Verticals:** Hyper-local news, community groups, short-form reels, and community radar live.
• **Trademark & IP:** Registered trademark protection (Adv. Priyanka TM-48) and proprietary distribution algorithms.

BUSINESS MODEL

• **Hyper-Local Sponsored Placements:** Geo-targeted verified business listings and neighborhood radar ads.
• **Creator & Admin Economy:** Shared transaction fees on premium communities, digital gifts, and live commerce.
• **Franchise & Enterprise Nodes:** City/district-level digital franchise hubs with localized administrative rights.

INVESTMENT ASK: $500,000 PRE-SEED

• **50% Product & AI Engine:** Scaling real-time distribution algorithms, recommendation engine, and mobile native apps.
• **30% Creator & Community Growth:** Onboarding 1,000+ local community admins, tier-2/3 creators, and regional hubs.
• **20% Infrastructure & Operations:** High-availability media delivery, trust & safety verification, and operational scale.
